Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Wednesday 10 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy, with heavy rain and strong winds.

Today:
A murky day, with extensive cloud cover and unsettled conditions. Though initially dry in northernmost areas, persistent rain, occasionally heavy, lingers across the region and winds strengthening throughout. Maximum temperature 11 deg C (52 deg F).

Tonight:
Winds strengthen to coastal severe gales and gales inland. Short-lived clearer spells after the rain is interrupted by blustery showers in the evening, occasionally heavy and turning widespread before dawn. Minimum temperature 6 deg C (43 deg F).

Thursday:
A murky start with lingering, heavy rain and coastal gales, clearing to blustery showers and a risk of hail. Strong winds continue, but chance of clear skies between the downpours. Maximum temperature 9 deg C (48 deg F).

Outlook for Friday to Sunday:
Remaining unsettled throughout with strong winds. Sunny spells interspersed with blustery, heavy showers on Friday and Saturday, with a risk of hail. Cloudy, with lighter showers and winds on Sunday.
